CAREER OBJECTIVE

Aspiring Software Test Engineer with hands-on experience in Manual Testing, Selenium Automation, API Testing using Postman, SQL, and TestNG through academic and personal projects. Strong understanding of SDLC, STLC, and Agile methodologies. Seeking to build a career in Quality Assurance and contributing to building reliable, high-quality, and user-friendly software applications.

TECHNICAL SKILLS

- **Testing Types:** Manual Testing, Automation Testing, Functional Testing, Regression Testing, Black Box Testing, Performance Testing
- **Automation Tools & Technologies:** Selenium, TestNG, Maven, POM, Playwright (Basics)
- **API Testing:** Postman
- **Programming:** Core Java, OOPs, Collections, Exception Handling
- **Database:** SQL, Joins, Subqueries
- **Tools:** Git/GitHub, Eclipse, VS Code
- **Methodologies:** SDLC, STLC, Agile

PROJECTS

E-Commerce Automation Testing Framework | *Java, Selenium WebDriver, TestNG, Maven, POM*

- Developed a scalable automation framework using Selenium WebDriver and Java.
- Automated 25+ test cases covering login, product search, add to cart, checkout and logout functions.
- Implemented Page Object Model (POM) for reusable and maintainable automation scripts.
- Integrated TestNG for execution, assertions, grouping, and reporting.
- Performed cross-browser testing and defect tracking and improved test execution efficiency by 50%.
- Increased regression test coverage by 60%. Reduced manual testing effort by 20+ hours per release.

REST API Testing for Online Shopping Application | *Postman, REST API, JSON*

- Tested GET, POST, PUT, and DELETE API requests.
- Created and executed 30+ API test scenarios using Postman.
- Validated response codes, headers, response time, and JSON payloads and Performed Positive and Negative API Testing.
- Automated API collection execution, Identified and reported 15+ API defects.
- Improved API validation coverage by 70%. Reduced manual verification effort through automation.

EXPERIENCE

Software Testing Intern | Venpep Solutions

Feb 2026 – Jun 2026

- Participated in Agile ceremonies, including sprint planning, sprint reviews, and retrospectives, gaining hands-on experience in Agile project delivery.
- Supported the delivery of 10+ user stories across multiple sprints through requirement analysis, validation, testing, and documentation.
- Collaborated with cross-functional teams to analyze and validate requirements, contributing to the on-time project completion.
- Assisted with defect tracking, test documentation, requirement validation, and process improvement activities to support product quality.

EDUCATION

MBA – Coimbatore Institute of Management and Technology

Jul 2023 – May 2025

B.E – Bharathiyar Institute of Engineering for Women

Aug 2019 – Jun 2023

CERTIFICATION

Software Testing Course – QSpiders (Manual, Automation (Selenium), Java, SQL, TestNG, Maven, API Testing)
